-  Minor courses in the Department of Health Sciences are major blocked each semester. A limited number of seats are available for minors in each course.

-  **Request overrides on the first day of advanced registration** each semester. This date is published in the university’s academic calendar. Your overrides will be processed and waiting for you on your assigned registration date as long as the class has not filled.

-  Overrides are requested in the Department of Health Sciences’ main office – Felmley Hall of Science, room 305, beginning on the first day of advanced registration. Override request forms are also available on the HSC Advising webpage.

-  It is recommended that you meet with the HSC advisor to create a long term plan of study for your minor in Health Education.
